

WEEK – 20

DURATION: 25 May 2026 – 29 May 2026

DAY 1: 25 May 2026

1. TASKS WORKED ON

- **College Documentation Work:** Completed the pending Daily Diary documentation required for college submission.
- **Synopsis Preparation:** Finalized and organized the synopsis document for the Trailer Tracking System project.
- **Deployment Issue Resolution:** Identified and resolved deployment-related issues in the Raftaar Ecommerce Website.
- **Website UI Updates:** Updated website visuals by adding new images and replacing the Featured Products section according to client requirements.

2. LEARNING AND KNOWLEDGE GAINED

Today, I improved my understanding of project documentation, synopsis preparation, deployment troubleshooting, and implementation of client-driven website enhancements. I also gained practical experience in maintaining project structure and improving website presentation.

3. PLAN FOR NEXT WORKING DAY

Continue working on live projects and complete the remaining project documentation.

DAY 2: 26 May 2026

1. TASKS WORKED ON

- ***Calendar Integration:*** Implemented calendar and date picker functionality across project modules to improve usability.
- ***Reusable Component Development:*** Created and integrated a reusable “Go to Top” feature for better navigation across table-based modules.
- ***Mid-Term Report Documentation:*** Worked on Unit-1, Unit-2, and Unit-3 of the Mid-Term Report, covering project requirements and software analysis.

2. LEARNING AND KNOWLEDGE GAINED

Today, I learned more about reusable component development, date picker integration, and user experience improvements in enterprise applications. I also enhanced my understanding of software requirement analysis and professional project documentation practices.

3. PLAN FOR NEXT WORKING DAY

Continue enhancing project functionality and work on the remaining sections of academic documentation.

DAY 3: 27 May 2026

1. TASKS WORKED ON

- **UI/UX Enhancements:** Improved user interaction flow and overall interface consistency across the MB-USA-Trucking project.
- **Edit Workflow Improvements:** Added automatic scrolling functionality after edit confirmation to improve navigation experience.
- **Table Standardization:** Applied consistent formatting, structure, and styling across all project tables.
- **Mid-Term File Completion:** Completed Software Design, Testing Module, and Performance documentation sections.

2. LEARNING AND KNOWLEDGE GAINED

Today, I gained practical experience in UI standardization, workflow optimization, and enterprise-level table design practices. I also strengthened my understanding of software design, testing methodologies, and performance-related documentation.

3. PLAN FOR NEXT WORKING DAY

Continue working on project documentation and finalize the remaining report sections.

DAY 4: 28 May 2026

1. TASKS WORKED ON

- ***Mid-Term Report Finalization:*** Completed performance documentation and organized project output screens.
- ***Documentation Review:*** Performed final content structuring, formatting corrections, and quality review of the Mid-Term Report.
- ***Final Report Preparation:*** Started working on the Final Report and completed the Introduction and Requirement Analysis sections.

2. LEARNING AND KNOWLEDGE GAINED

Today, I improved my understanding of technical report preparation, documentation structuring, and professional formatting practices. I also gained experience in organizing project outputs and preparing requirement analysis documentation.

3. PLAN FOR NEXT WORKING DAY

Continue working on the Final Report and complete the remaining design-related documentation.

DAY 5: 29 May 2026

1. TASKS WORKED ON

- ***Requirement Analysis Documentation:*** Completed the Requirement Analysis and System Specification chapter of the Final Report.
- ***System Design Documentation:*** Prepared system design details, methodologies, and design approaches for the project.
- ***Design Diagram Preparation:*** Worked on UML diagrams, database design, flowcharts, activity diagrams, and ER diagrams.
- ***User Interface Documentation:*** Completed user interface design and methodology sections of the Final Report.
- ***Internship Registration Form:*** Created and organized a Google Form for the Netsquare Software internship process.

2. LEARNING AND KNOWLEDGE GAINED

Today, I gained deeper knowledge of software requirement analysis, feasibility studies, system design documentation, UML modeling, database design concepts, and report preparation practices. I also improved my understanding of professional form design and information organization.

3. PLAN FOR NEXT WORKING DAY

Continue working on the remaining chapters of the Final Report and further improve project documentation quality.
