

WEEK – 21

DURATION: 01 June 2026 – 05 June 2026

DAY 1: 01 June 2026

1. TASKS WORKED ON

- ***Backend Architecture Analysis:*** Studied the backend structure of the Trailer Tracking System and analyzed the overall request flow.
- ***API & Authentication Workflow Analysis:*** Explored REST API communication, JWT authentication, authorization mechanisms, middleware, controllers, and MongoDB integration.
- ***Project Report Documentation:*** Completed the Implementation and Testing chapter of the project report.
- ***Results & Conclusion Documentation:*** Prepared the Results and Discussion section along with the Conclusion and Future Scope chapter.

2. LEARNING AND KNOWLEDGE GAINED

Today, I gained a deeper understanding of backend architecture, REST APIs, authentication workflows, middleware execution, and database operations. I also improved my knowledge of technical documentation and project report preparation.

3. PLAN FOR NEXT WORKING DAY

Review the completed project documentation and continue exploring backend workflows of the application.

DAY 2: 02 June 2026

1. TASKS WORKED ON

- ***Project Documentation Review:*** Reviewed and finalized the completed project report for submission.
- ***Documentation Refinement:*** Improved formatting, structure, and consistency across all report chapters.
- ***Backend Workflow Analysis:*** Performed an in-depth study of the MERN Stack architecture and application workflow.
- ***API Communication Analysis:*** Analyzed frontend-backend interactions, request-response lifecycle, authentication flow, and database operations.

2. LEARNING AND KNOWLEDGE GAINED

Today, I strengthened my understanding of the MERN Stack architecture and learned how data flows between React, Express.js, Node.js, and MongoDB. I also enhanced my knowledge of API communication, authentication mechanisms, and system design concepts.

3. PLAN FOR NEXT WORKING DAY

Continue working on live projects and further explore advanced backend workflows and business logic implementation.

DAY 3: 03 June 2026

1. TASKS WORKED ON

- ***Daily Diary Documentation:*** Completed and organized week-wise documentation for all internship weeks.
- ***Daily Diary Management Page Development:*** Designed and implemented a dedicated page for viewing diary records week-wise.
- ***Project Showcase Development:*** Created a Projects Done page to present completed projects along with deployment links.
- ***System Analysis:*** Continued analyzing the architecture, workflows, and module interactions of the Trailer Tracking System.

2. LEARNING AND KNOWLEDGE GAINED

Today, I gained practical experience in documentation organization, user-focused interface development, and portfolio presentation techniques. I also improved my understanding of system architecture, frontend-backend integration, and application workflow analysis.

3. PLAN FOR NEXT WORKING DAY

Continue working on live projects, complete project-related poster preparation, and enhance the portfolio application with additional UI and UX improvements.

DAY 4: 04 June 2026

1. TASKS WORKED ON

- **Live Project Development:** Continued working on ongoing project tasks and project enhancements.
- **Poster Preparation:** Worked on preparing project presentation materials and internship deliverables.
- **Documentation Review:** Reviewed project-related documents and ensured consistency across project artifacts.
- **Application Improvements:** Continued refining project presentation and organizational aspects of the portfolio application.

2. LEARNING AND KNOWLEDGE GAINED

Today, I improved my understanding of project presentation techniques, documentation organization, and professional project showcasing practices. I also strengthened my skills in maintaining project consistency and presentation quality.

3. PLAN FOR NEXT WORKING DAY

Continue working on project deliverables and finalize pending internship-related tasks.

DAY 5: 05 June 2026

1. TASKS WORKED ON

- ***Project Completion Activities:*** Continued working on project deliverables and final review activities.
- ***Documentation & Presentation Refinements:*** Improved the quality of project documentation and presentation materials.
- ***Project Organization:*** Organized project resources and reviewed completed work for submission readiness.
- ***Internship Deliverables Review:*** Verified project records, documentation, and overall project presentation.

2. LEARNING AND KNOWLEDGE GAINED

Today, I gained additional experience in project organization, documentation refinement, and professional presentation practices. I also improved my understanding of preparing project deliverables for final review and submission.

3. PLAN FOR NEXT WORKING DAY

Continue enhancing project quality and complete any remaining deliverables as required.
