

WEEK – 1

DURATION: 12 January 2026 – 17 January 2026

DAY 1: 12 January 2026

1. TASKS WORKED ON

- ***Basics of Slack:*** Learned the basic concepts and working of Slack as a communication and collaboration platform.
- ***Basics of Git Commands:*** Learned the fundamentals of Git and basic version control workflow.
- ***Basics of JavaScript:*** Studied the basic concepts of JavaScript including its synchronous nature and data type operations.

2. LEARNING AND KNOWLEDGE GAINED

Today, I learned the fundamentals of Slack, Git, and JavaScript. I also improved my understanding of JavaScript data types and how mathematical and concatenation operations behave with different types of data.

3. PLAN FOR NEXT WORKING DAY

Learn advanced Git concepts and understand the workflow of GitHub repositories and branching.

Here is the link: [Slack \(Answers\)](#)

Here is the link: [JS Basics](#)

DAY 2: 13 January 2026

1. TASKS WORKED ON

- ***Git & GitHub Concepts:*** Learned the difference between Git and GitHub along with their practical applications in software development workflows.
- ***GitHub Repository Management:*** Performed tasks related to GitHub repository creation and management. The completed tasks included:
 - Required Setup for Git
 - Repository Creation in GitHub
 - Understanding Real-Time Applications of GitHub
- ***Git Commands Practice:*** Practiced important Git commands.
- ***Branching & Conflict Resolution:*** Learned how to work with branches and resolve conflicts occurring while using Git commands. The concepts covered included:
 - Branch Creation and Management
 - Merge Conflict Handling
 - Conflict Resolution Workflow

2. LEARNING AND KNOWLEDGE GAINED

Today, I learned important version control concepts related to Git and GitHub. I improved my understanding of repository management, branching strategies, and conflict resolution workflows used in collaborative software development.

3. PLAN FOR NEXT WORKING DAY

Learn the basics of Notion and explore collaborative documentation tools.

DAY 3: 14 January 2026

1. TASKS WORKED ON

- ***Basics of Notion:*** Learned the basic concepts and applications of Notion for documentation and productivity management.
- ***Notion Page Creation & Management:*** Created and managed pages in Notion with multiple content elements.
- ***1.3 Hosting & Sharing in Notion:*** Learned how to host and share Notion pages with access control settings.
- ***1.4 Templates & Collaboration:*** Explored existing templates and collaboration features within Notion.

2. LEARNING AND KNOWLEDGE GAINED

Today, I learned how to use Notion for documentation, collaboration, and productivity management. I also improved my understanding of page structuring, content organization, and collaborative workflows using Notion.

3. PLAN FOR NEXT WORKING DAY

Explore blog writing platforms and learn the basics of technical content writing.

Here is the link: [NOTION \(Tasks\)](#)

DAY 4: 15 January 2026

1. TASKS WORKED ON

- ***Git Conflict Resolution:*** Learned about Git conflicts and explored methods to resolve merge conflicts effectively.
- ***Medium.com Exploration:*** Created an account on Medium.com and explored the platform for technical blogging and content publishing.
- ***Basics of Blog Writing:*** Learned the basics of technical blog writing and content structuring.
- ***Blog Writing & Publishing:*** Wrote and published a blog on Git with the title:

“Git – A Boon for Developers”

2. LEARNING AND KNOWLEDGE GAINED

Today, I learned the fundamentals of technical blog writing and publishing. I also improved my understanding of Git conflict resolution and explored how technical concepts can be documented effectively through blogs.

3. PLAN FOR NEXT WORKING DAY

Revise Git concepts through practical tasks and continue working on Slack and Notion-related assignments.

DAY 5: 16 January 2026

1. TASKS WORKED ON

- ***Blog Editing & Improvement:*** Edited and improved the previously published Git blog for better clarity and structure.
- ***Git Practical Tasks Completion:*** Completed multiple Git-related practical tasks including:
 - Task 1: Branching & Merging
 - Task 2: Merge Conflict & Resolution
 - Task 3: Reset, Fetch & Force Push (Advanced)
- ***Slack Tasks Completion:*** Completed the assigned tasks related to Slack platform usage and collaboration features.
- ***Notion Tasks Completion:*** Completed tasks related to Notion including:
 - Task 1: Create a Documentation Page

2. LEARNING AND KNOWLEDGE GAINED

Today, I strengthened my understanding of Git workflows including branching, merging, conflict resolution, and advanced Git operations. I also improved my practical understanding of Slack collaboration tools and Notion documentation workflows.

3. PLAN FOR NEXT WORKING DAY

Continue learning frontend development concepts and strengthen JavaScript fundamentals.
